EDUCATION

University College London UCL

09/2022 – 09/2025

Bachelor of Science BSc Environmental Geoscience

- Modules include MATLAB, GIS, Clean Energy, Mineral Resources & Environment, and Geochemistry, providing a strong foundation in data driven based analysis
- Strong quantitative background using methods (MATLAB, R, Python,SQL) to model environmental and economic scenarios, developing skills directly applicable to analytical and policy work
- Conducted research on sustainability metrics and resource valuation, assessing trade-offs relevant to decarbonisation policy and Net Zero transitions
- Developed understanding of ESG-related risk factors,carbon exposure and regulatory pressures in the built environment, including Net Zero carbon policy, and how policy, regulation, and market forces influence energy systems
- Studied energy economics principles including electricity markets, pricing mechanisms, and renewable integration, capacity markets, marginal cost pricing and the economics of variable renewable integration.
- Regularly analysed energy market developments, including carbon pricing (EU ETS), supply demand dynamics, and geopolitical influences on energy markets.

The Warren School

09/2020 – 08/2022

Advanced Level (A-levels)

- A-levels: Geography, Economics, Psychology
- Built strong foundations in economic principles, market behaviour and evidence-based decision-making, supporting critical thinking across policy and analytical contexts

The Warren School

09/2015 – 08/2020

General Certificate of Secondary Education (GCSEs)

- 9 GCSEs at grades 9-4 including English Language and Mathematics

WORK EXPERIENCE

9 Millbank Residences

London, UK

Spa Concierge

11/2025 – Present

- Conducted structured daily compliance audits, logging all findings accurately to uphold regulatory and safety standards – demonstrating attention to detail and accountability
- Prepared clear, concise daily handovers for management, supporting effective operational delivery and continuity across teams

Art'otel Hoxton London, UK

Spa Receptionist

07/2025 – 11/2025

- Managed bookings, payments and reporting systems, demonstrating ability to prioritise tasks, meet deadlines and deliver operational outcomes under pressure
- Supported revenue optimisation through client engagement and upselling, showing commercial awareness and initiative
- Maintained professionalism and discretion in all client-facing interactions, developing strong interpersonal and communication skills

VOLUNTEERING & LEADERSHIP

UCL Projects & Initiatives

London, UK

Data Analyst & Researcher

10/2024 – 04/2025

- Researched sustainable development trends and low carbon design principles, building knowledge of embodied carbon, circular economy frameworks and the built environment's role in achieving Net Zero
- Identified key trends and trade-offs in energy transition scenarios, demonstrating analytical judgement
- Monitored and analysed renewable energy market trends, policy developments, and global decarbonisation strategies
- Produced structured reports translating technical findings into clear recommendations for non-specialist audiences, demonstrating written communication skills

Marks Gate Muslim Community

London, UK

Treasurer

05/2019 – Present

- Managed organisational finances including budgeting, income tracking and expense reporting, demonstrating ability to plan ahead, prioritise and deliver against targets
- Maintained transparent financial records and communicated updates to stakeholders, supporting good governance and building trust across the community

Humdingers Catering – Soup Kitchen

London, UK

Volunteer Food Handler

10/2021 – Present

- Contributed to food distribution for vulnerable and low income households across London, reflecting a genuine commitment to consumer welfare and social impact

SKILLS AND ACHIEVEMENTS

- **Analytical Tools:** MATLAB, R Studio, Python, GIS – applied to environmental modelling, data analysis and evidence based research
- **IT Proficiency:** Microsoft Office Suite including Excel and PowerPoint
- **Energy & Policy Awareness:** Understanding of Net Zero policy, decarbonisation pathways, carbon risk, ESG frameworks and Geopolitics
- **Languages:** English (Native), Bengali (Fluent)
- **Professional Skills:** Familiar with GB capacity market, EU ETS carbon pricing,
